

## CHM223 Physical Chemistry: The Molecular Viewpoint

### Contact info:

Dvira Segal  
 Lash Miller 420D  
 email: dsegal@chem.utoronto.ca  
 phone: 416 946 0559  
 I will respond to UofT emails only.

Classes: Mon and Wed 4-5 pm, LM 162  
 Office Hours Wed 2-3 in LM 420D (Segal) - or email to set an alternative time.

### Marking Scheme:

5 HW sets = 25% (penalty: 2 points/5 per day are taken for late submission)  
 bonus HW set = 2%  
 Midterm = 20%  
 Final exam in final examination period = 55%

### Midterm

Wed. Feb. 28 during class. The exam will cover all material taught before this class.

No make-up for midterm. Accommodations will be made if you miss the midterm due to an illness—and had submitted to the Course Instructor a Verification of Student Illness form (see below). Most likely, the weight of your final exam will be enhanced to 75%. Without this form (or a documented exceptional situation), the mark for the midterm is automatically set to 0/20.

### Assignments

Submit during lectures to Course Instructor (Segal).

HW set	From	Due date	weight/100
1	Jan 08	Jan 31	5
2	Jan 31	Feb 14	5
3	Feb 14	Feb 26	5
4	Feb 28	March 14	5
5	March 14	April 2	5
6	March 14	April 4	extra 2

Note: These are tentative dates, to be modified according to teaching pace. Please follow announcements in class and on the portal.
