

Chemistry 1290 Inorganic Seminars

- Coordinator: D.W. Stephan
 - dstephan@chem.utoronto.ca
- Lectures: 5 pm Wednesday, Davenport East
- All 2nd, 3rd and 4th year graduate students in inorganic chemistry are required to give a lecture in this series. Students in their 2nd and 4th year, will discuss their research plans and results respectively. 3rd year graduate students are required to present a research proposal. The latter is to be in an area distinct from their research work.

Evaluation

Students are assessed by faculty in attendance on:

- Intro/background preparation
- Presentation skills: slide design, verbal, audience interaction, oration
- Content and organization
- Student's understanding of: aims, significance of the work, relationship to previous studies
- Ability to handle questions
- Overall impression.
